INTRODUCTION

This report shows the distribution of population by sex and the proportion of males to females according to the 1961 Census of Canada.

Historical comparisons are presented for provinces back to 1901 in Table 15 and for counties and census divisions in the 1951-61 period in Table 16. (Figures for earlier years back to the 1871 Census may be found at Tables 16 and 17 of Volume I of the 1951 Census.) The 1961 Census distributions for municipal subdivisions of 10,000 and over and for component parts of metropolitan and other major urban areas are shown in Tables 17, 18 and 19 of this report.

The following statement shows sex distributions for rural farm, non-farm and urban areas of provinces. Rural and urban classifications by sex for counties and census divisions appear in Report 1.1-7 in the Volume I (Part 1) series.

Le présent rapport répartit la population du Canada selon le sexe et la proportion d'hommes par rapport aux femmes, d'après le recensement de 1961.

Les comparaisons chronologiques remontent jusqu'à 1901 pour les provinces (tableau 15) et portent sur la période 1951-1961 pour les comtés et divisions de recensement (tableau 16). (La statistique des années antérieures jusqu'au recensement de 1871 se trouve aux tableaux 16 et 17 du 1er volume du Recensement de 1951.) La répartition de la population de 1961 par subdivision municipale de 10,000 habitants et plus et pour les parties constituantes des zones métropolitaines et des autres grandes agglomérations urbaines se trouve aux tableaux 17, 18 et 19 du présent rapport.

L'exposé ci-après répartit selon le sexe la population des régions rurales agricoles et non agricoles et des régions urbaines des provinces. La répartition rurale et urbaine selon le sexe des comtés et divisions de recensement paraît dans le Rapport 1.1-7 du Volume I (partie 1).
